To: All Hardisty Light Stream, Hardisty Truck Terminal, IPL Ham Lake, Enbridge Pipeline (MSB) and Spectra Pipeline (SO) Shippers

Re: Gibson Hardisty Light Stream (MBL) Notice

Gibson is pleased to announce a favorable change to the operating conditions for the Hardisty Light Stream. Batch size movement through our terminal to Enbridge and Spectra Pipelines can now be increased to a maximum size of 10,000 m³ (62,900 bbls). These changes take effect today May 18, 2017.

Should questions arise, please contact Matt Thibault at (403) 206-4056 or myself at (403) 206-4138.

Thank you for your attention to this matter.

Regards;

Doug Barry | Gibson Energy
