

March 27, 2017

To All Shippers at the Gibson Hardisty Terminal.

RE: Gibsons Mixed Blend Sweet (GSW)

Please be advised that Gibson Energy will be accepting nominations for the recently approved Gibsons Mixed Blend Sweet (GSW) stream, effective May 2017 production month.

The GSW stream is only accessible at the Gibson Hardisty Truck Terminal. All volumes will be managed by the Gibsons Wholesale Crude Oil team as a Single Shipper terminal and the Gibson Rules and Regulations will apply. Updated Quality Specifications are posted on our website under Tariff #103.

Consistent with our existing streams into the terminal, upon request, there will be a minimum volume requirement of 1,000 m³/month per shipper in order to have your volumes returned.

If you have any questions or concerns please contact one of the undersigned or your Gibson representative.
