ELIGIBILITY FOR INVESTMENT

In the opinion of Bennett Jones LLP, counsel to the Company and the Selling Shareholder, and of Macleod Dixon LLP, counsel to the Underwriters, at the date hereof, the Common Shares are a qualified investment under the *Income Tax Act* (Canada) (the "**Tax Act**") and the regulations thereunder for a trust governed by a registered retirement savings plan ("**RRSP**"), registered retirement income fund ("**RRIF**"), registered education savings plan, deferred profit sharing plan, registered disability savings plan and tax-free savings account as defined in the Tax Act.

Notwithstanding the foregoing, if the Common Shares are a "prohibited investment" for purposes of the Tax Act, a holder will be subject to a penalty tax on Common Shares held in a tax-free savings account as set out in the Tax Act. A Common Share will not be a prohibited investment for a trust governed by a tax-free savings account of a particular holder provided that the holder deals at arm's length with the Company for purposes of the Tax Act, and does not have a "significant interest" (as defined in the Tax Act) in either the Company or a person or partnership that does not deal at arm's length with the Company for purposes of the Tax Act.

The annuitant of an RRSP or RRIF will be subject to rules similar to the prohibited investment rules that apply to the holder of a tax-free savings account effective after March 22, 2011 pursuant to proposed amendments to the Tax Act.

Although the Selling Shareholder has appointed Bennett Jones LLP as its agent for service of process in the province of Alberta it may not be possible for investors to enforce judgments obtained in Canada against the Selling Shareholder.

Certain of the Company's directors reside outside of Canada. Furthermore, substantially all of the assets of those persons may be located outside of Canada. It may not be possible for investors to effect service of process within Canada upon these directors. In addition, it may not be possible to enforce against these directors judgments obtained in Canadian courts predicated upon the civil liability provisions of applicable securities laws in Canada.

THE COMPANY

The Company was incorporated under the *Business Corporations Act* (Alberta) on April 21, 2011. Immediately preceding the closing of its IPO, the Company amalgamated with Gibson Energy Holding ULC and 1441682 Alberta Ltd. pursuant to articles of amalgamation dated June 15, 2011.

Gibson is one of the largest independent midstream energy companies in Canada and a major participant in the crude oil transportation business in the United States, and is engaged in the movement, storage, blending, processing, marketing and distribution of crude oil, condensate, natural gas liquids and refined products. The Company transports hydrocarbons by utilizing its integrated network of terminals, pipelines, storage tanks, and truck fleet located throughout western Canada and the United States. The Company is also involved in the processing, blending and marketing of hydrocarbons and is the second largest retail propane distribution company in Canada. The Company's integrated operations allow it to participate across the full midstream energy value chain, from the hydrocarbon producing regions in Canada and the United States, through the Company's strategically located terminals in Hardisty and Edmonton, Alberta and injection stations in the United States, to the refineries of North America via major pipelines.

Gibson has provided market access to leading oil and gas industry participants in western Canada for the last 58 years. The Company has grown its business by diversifying its service offerings to meet customers' needs and by expanding geographically. Most recently, Gibson expanded its service offerings to key hydrocarbon producing regions throughout the United States to position itself as a North American midstream energy company.

The Company's head office is located at Suite 1700, 440 - 2nd Avenue, S.W., Calgary, Alberta T2P 5E9 and its registered office is located at 4500, 855 - 2nd Street S.W., Calgary, Alberta T2P 4K7.

RECENT DEVELOPMENTS

Completion of IPO

On June 15, 2011, Gibson closed its IPO of 31,250,000 Common Shares at a price of \$16.00 per Common Share for gross proceeds of \$500 million. The Term Loan and Credit Facility were established substantially on the terms described in the IPO Prospectus. The reorganization described in the IPO Prospectus was completed substantially on the terms described therein, such that the share of the Company held by the Selling Shareholder and the securities of Gibson Energy Holding ULC held by the Selling Shareholder were converted into shares of the amalgamated Company, resulting in the Selling Shareholder holding an aggregate of 62,250,000 Common Shares after the amalgamation but prior to the partial exercise of the over-allotment option granted by the Selling Shareholder to the underwriters of the IPO to the extent of 4,250,000 Common Shares.

The committees of the board of directors (the "**Board**") of the Company were established substantially on the terms described in the IPO Prospectus. The audit committee of the Board is currently comprised of Andrew W. Ward, Donald R. Ingram and Marshall L. McRae.

Palko Acquisition

On October 17, 2011, Gibson and Palko Environmental Ltd. ("**Palko**") entered into an agreement providing for the acquisition by Gibson of all of the issued and outstanding common shares of Palko ("**Palko Shares**") not already owned, directly or indirectly, by Gibson (the "**Palko Acquisition**"). Under the terms of the Palko Acquisition, shareholders of Palko may elect to receive either: (i) 0.1717 of a Common Share for each Palko Share; (ii) \$3.05 cash for each Palko Share; or (iii) a combination thereof. If Palko shareholders elect to receive 100% cash consideration, the acquisition cost to Gibson to acquire the Palko shares (excluding any Palko Shares issued upon exercise or surrender of options to purchase Palko Shares) will be approximately \$42.9 million, excluding the assumption of Palko's net debt which was approximately \$16.49 million at September 30, 2011. The Palko Acquisition will expand Gibson's Canadian custom terminal operations to include water disposal services and oilfield waste management. Assuming that there are no shareholders of Palko that dissent in accordance with the terms of the Palko Acquisition and assuming that all shareholders of Palko elect to receive Common Share consideration only and excluding any Palko Shares issued upon exercise or surrender of options to purchase Palko Shares, a maximum of approximately 2,416,331 Common Shares would be issued to shareholders of Palko pursuant to the Palko Acquisition. The Palko Acquisition is expected to be completed on or about December 8, 2011.

Completion of Secondary Offering

On November 7, 2011, Gibson completed a secondary offering of Common Shares held by the Selling Shareholder, pursuant to which the Selling Shareholder sold 16,100,000 Common Shares (including the exercise in full of the over-allotment option granted to the underwriters under such offering to purchase an additional 2,100,000 Common Shares) at a price of \$18.00 per Common Share for total gross proceeds to the Selling Shareholder of \$289,800,000.

DESCRIPTION OF SHARE CAPITAL

The Company's authorized share capital consists of an unlimited number of Common Shares and an unlimited number of preferred shares, issuable in series (the "**Preferred Shares**"). As at the date hereof, there are 94,667,086 Common Shares issued and outstanding, and no Preferred Shares are issued and outstanding.

Common Shares

Holders of Common Shares are entitled to one vote per Common Share at meetings of shareholders of the Company, to receive dividends if, as and when declared by the Board and to receive pro rata the remaining property and assets of the Company upon its dissolution or winding-up, subject to the rights of shares having priority over the Common Shares.

The Preferred Shares are issuable in series and have such rights, restrictions, conditions and limitations as the Board may from time to time determine. The Preferred Shares shall rank senior to the Common Shares with respect to the payment of dividends or distribution of assets or return of capital of the Company in the event of a dissolution, liquidation or winding up of the Company. There are no Preferred Shares issued and outstanding.

Dividends

The Company is currently paying quarterly dividends to holders of Common Shares ("**Shareholders**"). On October 21, 2011 Gibson paid a dividend to Shareholders of record on September 30, 2011 of \$0.28 per Common Share. Shareholders of record on December 30, 2011 will receive a dividend of \$0.24 per Common Share, which is expected to be paid on or about January 17, 2012. Purchasers under the Offering who continue to hold the Common Shares on December 30, 2011, being the record date for the next quarterly dividend, will be entitled to receive such dividend.

The Board has approved a dividend reinvestment plan (the "**DRIP**"). The DRIP provides eligible Shareholders with the opportunity to reinvest their cash dividends, on each dividend payment date, in additional Common Shares to be issued from treasury of Gibson.

The payment of dividends is not guaranteed, and the amount and timing of any dividends payable by Gibson will be at the discretion of the Board and will be established on the basis of Gibson's earnings, financial requirements for the Company's operations, the satisfaction of solvency tests imposed by applicable corporate law and the instruments evidencing the Company's indebtedness for the declaration and payment of dividends and the satisfaction of regulatory capital requirements. See "Risk Factors".

USE OF PROCEEDS

The aggregate net proceeds to the Selling Shareholder from the sale of the Common Shares under this short form prospectus are estimated to be approximately \$280,080,000 after deduction of the Underwriters' Fee of \$11,670,000. If the Over-Allotment Option is exercised in full, the (i) additional aggregate net proceeds to the Selling Shareholder are estimated to be approximately \$42,012,000 after deduction of the Underwriters' Fee in respect of the Common Shares sold pursuant to the exercise of the Over-Allotment Option of \$1,750,500, and (ii) aggregate net proceeds to the Selling Shareholder from the sale of the Common Shares pursuant to the Offering and the exercise of the Over-Allotment Option are estimated to be \$322,092,000 after deduction of the Underwriters' Fee of \$13,420,500. The Company will not receive any of the proceeds from the Offering. In accordance with the terms and conditions of a registration rights agreement entered into between the Selling Shareholder and the Company on June 15, 2011 in connection with the IPO (the "**Registration Rights Agreement**"), the Company will bear all expenses of the Offering (excluding the Underwriters' Fee, which will be paid by the Selling Shareholder, and fees of Underwriters' counsel and out-of-pocket expenses of the Underwriters, which will be paid by the Underwriters).

PLAN OF DISTRIBUTION

General

Pursuant to the Underwriting Agreement dated November 28, 2011 between the Company, the Selling Shareholder and the Underwriters, the Selling Shareholder has agreed to sell and the Underwriters have agreed to purchase on or about December 12, 2011, 15,000,000 Common Shares at a price of \$19.45 per Common Share, for aggregate gross consideration of \$291,750,000 payable in cash to the Selling Shareholder against delivery of the Common Shares. The Offering Price of the Common Shares has been determined by negotiation between the Selling Shareholder and the Underwriters. The Company will not be entitled to any of the proceeds from the sale of the Common Shares offered by this short form prospectus.

Pursuant to the Underwriting Agreement, the Selling Shareholder has granted the Underwriters an Over-Allotment Option to cover over-allotments, if any, and for market stabilization purposes. The Over-Allotment Option may be exercised by the Underwriters, in whole or in part, for a period from and including November 28, 2011 to 30 days following the Closing and entitles the Underwriters to purchase from the Selling Shareholder up to 2,250,000 Common Shares at the Offering Price (being 15% of the aggregate number of Common Shares offered hereunder). If the Over-Allotment Option is exercised in full, the total price to the public will be \$335,512,500, the Underwriters' Fee will be \$13,420,500 and the aggregate net proceeds to the Selling Shareholder will be \$322,092,000.

In the Underwriting Agreement, the Underwriters have agreed, subject to compliance with all necessary legal requirements and to the conditions set forth therein, to purchase the Common Shares. In consideration for their services in connection with the Offering, the Selling Shareholder has agreed to pay the Underwriters a fee equal to \$0.778 per Common Share. The Selling Shareholder will also pay the Underwriters' Fee in respect of Common Shares sold by the Selling Shareholder if the Over-Allotment Option is exercised.

The Offering is being made in each of the provinces and territories of Canada and in the United States in an offering to qualified institutional buyers exempt from the registration requirements of the U.S. Securities Act, pursuant to Rule 144A thereunder. The Common Shares will be offered in each of the provinces and territories of Canada through those Underwriters or their affiliates who are registered to offer the Common Shares for sale in such provinces and territories and such other registered dealers as may be designated by the Underwriters. Subject to applicable law, the Underwriters may offer the Common Shares outside of Canada.

The obligations of the Underwriters under the Underwriting Agreement are several (and not joint or joint and several), are subject to certain closing conditions and may be terminated at their discretion upon the occurrence of certain stated events. The Underwriters are, however, obligated to take up and pay for all of the Common Shares if any Common Shares are purchased under the Underwriting Agreement. The Underwriters are entitled under the Underwriting Agreement to indemnification by the Company and the Selling Shareholder against certain liabilities and expenses. In addition, pursuant to the Registration Rights Agreement, the Company has agreed to indemnify the

Selling Shareholder against certain liabilities and expenses and the Selling Shareholder has agreed to indemnify the Company for certain liabilities in connection with a demand registration.

In connection with completion of the Offering, the Company and the Selling Shareholder have agreed that without the prior written consent of the Lead Underwriters, which consent will not be unreasonably withheld, delayed or refused, the Company and the Selling Shareholder will not, during the period ending 90 days after Closing, issue or sell any Common Shares or securities or other financial instruments convertible into or having the right to acquire Common Shares (other than (A) pursuant to rights or obligations under securities or instruments outstanding; (B) pursuant to the DRIP; (C) grants of stock options, restricted share units and deferred share units pursuant to the terms of the equity compensation plans of the Company; (D) issuances of Common Shares to shareholders of Palko in connection with the Palko Acquisition) or enter into any agreement or arrangement the consequence of which is to directly or indirectly transfer to someone else, in whole or in part, or offer or announce any intention to do so, any of the economic consequences of ownership of, any Common Shares or any securities convertible or exchangeable into Common Shares. In addition, it is a term of the Underwriting Agreement that the Company's senior officers and directors will agree, prior to Closing, not to sell, or agree to sell (or announce any intention to do so), any Common Shares or securities exchangeable or convertible into Common Shares for a period of 90 days from the Closing without the prior written consent of the Lead Underwriters, which consent will not be unreasonably withheld.

The Common Shares have not been and will not be registered under the U.S. Securities Act or any U.S. state securities laws and may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons except in transactions exempt from the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, except to the extent permitted by the Underwriting Agreement, the Common Shares may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons. The Underwriting Agreement provides that the Underwriters may re-offer and resell the Common Shares that they have acquired pursuant to the Underwriting Agreement to qualified institutional buyers in the United States in accordance with Rule 144A under the U.S. Securities Act. The Underwriting Agreement also provides that the Underwriters will offer and sell the Common Shares outside the United States only in accordance with Regulation S under the U.S. Securities Act. In addition, until 40 days after the commencement of the Offering, an offer or sale of the Common Shares within the United States by any dealer (whether or not participating in the Offering) may violate the registration requirements of the U.S. Securities Act if such offer or sale is made otherwise than in reliance on an exemption from the registration requirements of the U.S. Securities Act.

Price Stabilization, Short Positions and Passive Market Making

In connection with the Offering, the Underwriters may over-allocate or effect transactions which stabilize or maintain the market price of the Common Shares at levels other than those which otherwise might prevail on the open market, including: stabilizing transactions, short sales, purchases to cover positions created by short sales, imposition of penalty bids and syndicate covering transactions.

Stabilizing transactions consist of bids or purchases made for the purpose of preventing or retarding a decline in the market price of the Common Shares while the Offering is in progress. These transactions may also include making short sales of the Common Shares, which involve the sale by the Underwriters of a greater number of Common Shares than they are required to purchase in the Offering. Short sales may be "covered short sales", which are short positions in an amount not greater than the Over-Allotment Option, or may be "naked short sales", which are short positions in excess of that amount.

The Underwriters may close out any covered short position either by exercising the Over-Allotment Option, in whole or in part, or by purchasing Common Shares in the open market. In making this determination, the Underwriters will consider, among other things, the price of Common Shares available for purchase in the open market compared with the price at which they may purchase Common Shares through the Over-Allotment Option.

The Underwriters must close out any naked short position by purchasing Common Shares in the open market. A naked short position is more likely to be created if the Underwriters are concerned that there may be downward pressure on the price of the Common Shares in the open market that could adversely affect investors who purchase in the Offering.

In addition, in accordance with rules and policy statements of certain Canadian securities regulators, the Underwriters may not, at any time during the period of distribution, bid for or purchase Common Shares. The foregoing restriction is, however, subject to exceptions where the bid or purchase is not made for the purpose of creating actual or apparent active trading in, or raising the price of, the Common Shares. These exceptions include a bid or purchase permitted under the by-laws and rules of applicable regulatory authorities and the applicable stock exchange, including the Universal Market Integrity Rules for Canadian Marketplaces, relating to market stabilization and passive market making activities and a bid or purchase made for and on behalf of a customer where the order was not solicited during the period of distribution.

As a result of these activities, the price of the Common Shares may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the Underwriters at any time. The Underwriters may carry out these transactions on any stock exchange on which the Common Shares are listed, in the over-the-counter market, or otherwise.

Over-Allotment Option

The Selling Shareholder has granted to the Underwriters an Over-Allotment Option, exercisable, in whole or in part, at the sole discretion of the Underwriters, for a period from and including November 28, 2011 to 30 days from the date of the Closing, to purchase from the Selling Shareholder up to an aggregate of 2,250,000 additional Common Shares (representing 15% of the Common Shares offered hereunder), at the Offering Price, payable in cash against delivery of such additional shares. The Over-Allotment Option is exercisable in whole or in part only for the purpose of covering over-allotments, if any, made by the Underwriters in connection with the Offering and for market stabilization purposes. The Selling Shareholder will pay the Underwriters' Fee in respect of Common Shares sold hereunder by the Selling Shareholder if the Over-Allotment Option is exercised. If the Over-Allotment Option is exercised in full, the total price to the public, Underwriters' Fee and aggregate net proceeds to the Selling Shareholder will be \$335,512,500, \$13,420,500 and \$322,092,000, respectively. The Company will not receive any proceeds from the exercise of the Over-Allotment Option. This short form prospectus qualifies the grant of the Over-Allotment Option and the distribution of the Common Shares upon exercise of the Over-Allotment Option. A purchaser who acquires Common Shares forming part of the Underwriters' over-allocation position acquires those shares under this short form prospectus, regardless of whether the position is ultimately filled through the exercise of the Over-Allotment Option or secondary market purchases.

Commissions and Expenses

The following table shows the fee per Common Share and total Underwriters' Fee the Selling Shareholder will pay to the Underwriters, assuming both no exercise and full exercise of the Underwriters' Over-Allotment Option:

	<u>Over-Allotment Option Not Exercised (\$)</u>	<u>Over-Allotment Option Fully Exercised (\$)</u>
Per Common Share	0.778	0.778
Total	11,670,000	13,420,500

The Underwriters propose to offer the Common Shares initially at the public Offering Price stated on the cover page of this short form prospectus. After the Underwriters have made a reasonable effort to sell all of the Common Shares offered by this short form prospectus at that price, the initially stated Offering Price may be decreased, and further changed from time to time, by the Underwriters to an amount not greater than the initially stated Offering Price and, in such case, the compensation realized by the Underwriters will be decreased by the amount that the aggregate price paid by the purchasers for the Common Shares is less than the gross proceeds paid by the Underwriters to the Selling Shareholder. Any such reduction to the Offering Price will not affect the proceeds received by the Selling Shareholder.

Book-Based System

Subscriptions will be received subject to rejection or allotment in whole or in part and the Underwriters reserve the right to close the subscription books at any time without notice. It is expected that Closing will occur on or about December 12, 2011, or such later date as the Company, the Selling Shareholder and the Underwriters may

agree, but in any event not later than December 30, 2011. The Offering will be conducted under the book-based system. A subscriber who purchases Common Shares will receive customer confirmation from the registered dealer from or through whom Common Shares are purchased and who is a CDS depository service participant. CDS will record the CDS participants who hold Common Shares on behalf of owners who have purchased Common Shares in accordance with the book-based system. No certificates will be issued unless specifically requested.

PROMOTER

Riverstone may be considered to be the promoter of the Company in that it directly took the initiative in substantially reorganizing the Company and its affiliates in connection with the acquisition described in the IPO Prospectus under the headings "Notice to Investors – Interpretation" and "Business of the Company – History", which sections are incorporated herein by reference, pursuant to which Gibson Acquisition ULC, an indirect wholly owned subsidiary of the Selling Shareholder, acquired all of the issued and outstanding class A common shares and class B common shares of Gibson Energy Holdings Inc. from Hunting PLC. Private equity investment funds affiliated with Riverstone will beneficially own, through the Selling Shareholder, 27,773,810 Common Shares on the closing of the Offering assuming that the Over-Allotment Option is not exercised.

The Company previously had a management agreement with Riverstone, whereby the Company was required to pay an annual fee as consideration for their performance of advisory, consulting and other services. The management fee payable was the lesser of one percent of the Company's consolidated net income before interest expense, income taxes, depreciation, and amortization for the year or \$1.0 million. The management agreement was terminated in connection with the IPO.

Concurrently with the completion of the IPO, the Company and the Selling Shareholder entered into the Registration Rights Agreement to govern, as between themselves, the sale of Common Shares held by the Selling Shareholder and its affiliates. Reference is made to the section entitled "Relationship with Riverstone" at page 143 of the IPO Prospectus, which section is incorporated herein by reference.

RELATIONSHIP BETWEEN THE COMPANY AND THE UNDERWRITERS

BMO Nesbitt Burns Inc., CIBC World Markets Inc., Scotia Capital Inc., TD Securities Inc., RBC Dominion Securities Inc. and J.P. Morgan Securities Canada Inc. are affiliates of banks that are members of a syndicate of lenders (collectively, the "**Banks**") under Gibson Energy ULC's term loan (the "**Term Loan**") and revolving credit facility (the "**Credit Facility**"). Gibson Energy ULC is a wholly owned subsidiary of the Company. Accordingly, pursuant to applicable securities legislation, Gibson may be considered a "connected issuer" of these Underwriters for the purposes of securities regulations in certain provinces and territories of Canada.

As of September 30, 2011, Gibson Energy ULC was indebted to the Banks under the Term Loan and Credit Facility for approximately U.S.\$648,375,000 and nil, respectively. As of the date of this short form prospectus, Gibson Energy ULC is in compliance in all material respects with the terms of its indebtedness to the Banks under the Term Loan and Credit Facility.

Certain of the Underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for the Company, for which they received or will receive customary fees.

For a description of the material terms of the Term Loan and Credit Facility see "Description of Material Indebtedness", at pages 139 to 143 of the IPO Prospectus. The Term Loan and Credit Facility were established substantially as described in the IPO Prospectus.

Since the indebtedness to the Banks was incurred, the financial position of the Company has not adversely changed. None of the Banks have waived any breach of the Credit Facility or Term Loan since their respective execution. None of the Banks were involved in the decision to proceed with the Offering or were involved in the determination of the terms of the Offering, including structure and pricing. The Company will not receive any of the proceeds from the Offering. As a consequence of the Offering, the above Underwriters will receive a commission in respect of the Common Shares sold through the Underwriters. See "Use of Proceeds".

RISK FACTORS

An investment in the Common Shares involves a substantial degree of risk due to the nature of the Company's business. As a result, investors should consider investing in the Common Shares only if they can afford to lose their entire investment. Investors should carefully consider the risks described in the section entitled "Risk Factors" in the IPO Prospectus, which section is incorporated by reference herein, the risk factors set forth below and the other information contained in this short form prospectus before making a decision to buy the Common Shares. If any of the described risks or other risks occur, the Company's business, prospects, financial condition, results of operations and cash flows could be materially adversely impacted. In that case, the trading price of the Common Shares could decline and investors could lose all or part of their investment in the Common Shares. There can be no assurance that risk management steps taken by the Company will avoid future loss due to the occurrence of any of the risk factors described below or other unforeseen risks.

Future Sales of Common Shares by Existing Shareholders

After the Offering but before giving effect to the Palko Acquisition, it is anticipated that the Selling Shareholder will, in the aggregate, beneficially own or control, directly or indirectly, 27,773,810 Common Shares, which in the aggregate will represent approximately 29% of the outstanding Common Shares on completion of the Offering (or 27% if the Over-Allotment Option is exercised in full). See "The Selling Shareholder". Subject to compliance with applicable securities laws and the lock-up agreements to be entered into between certain parties in connection with the Offering (including all the directors and senior officers of the Company), pursuant to which the persons subject to the lock-up agreements have agreed, subject to certain exceptions, not to offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any Common Shares or securities convertible into or exchangeable or exercisable for any Common Shares, without the prior written consent of the Lead Underwriters for a period of 90 days from the Closing, the Company's senior officers, directors, principal shareholders and their affiliates may sell some or all of their Common Shares in the future. No prediction can be made as to the effect, if any, such future sales of Common Shares will have on the market price of the Common Shares prevailing from time to time. However, the future sale of a substantial number of Common Shares held by the Company's senior officers, directors, principal shareholders and their affiliates, or the perception that such sales could occur, could adversely affect prevailing market prices for the Common Shares.

LEGAL MATTERS

There are no legal proceedings that the Company is or was a party to, or that any of the Company's property is or was the subject of, since January 1, 2010, that were or are material to the Company, and there are no such material legal proceedings that the Company knows to be contemplated. For the purposes of the foregoing, a legal proceeding is not considered to be "material" by the Company if it involves a claim for damages and the amount involved, exclusive of interest and costs, does not exceed 10% of the Company's current assets, provided that if any proceeding presents in large degree the same legal and factual issues as other proceedings pending or known to be contemplated, the Company has included the amount involved in the other proceedings in computing the percentage. See "Risk Factors".

There were no: (i) penalties or sanctions imposed against the Company by a court relating to provincial and territorial securities legislation or by a securities regulatory authority within the three years immediately preceding the date of this short form prospectus; (ii) other penalties or sanctions imposed by a court or regulatory body against the Company that the Company believes must be disclosed for this short form prospectus to contain full, true and plain disclosure of all material facts relating to the Common Shares; or (iii) settlement agreements the Company entered into before a court relating to provincial and territorial securities legislation or with a securities regulatory authority within the three years immediately preceding the date of this short form prospectus.
