**Notes**
- **Contact with the material may cause mild irritation.**
  - Prolonged exposure to diesel fumes may cause a burning sensation.

**Public Protection Measures**

**Public Protection Measures**

**PREVENTION PROCEDURE**

- Tightly close windows and outside doors. If convenient, tape the gaps around the exterior door frames.

- Extinguish indoor wood burning fires, close flue dampers if possible.

- Turn off appliances or equipment that either:
  - Exhale fumes into the building
  - Introduce outside air into the building

- Wait in an interior room upstairs for further instruction.

- Avoid using the telephone, except for emergencies, so that you can coordinate a response.

- Keep doors and windows closed.

- Turn down the thermostat and shut off any air exchange fans to prevent infiltration from outdoors, thus reducing the concentrations to which the occupants are exposed. Therefore sheltering may be considered as an alternative to evacuations for short durations.

- Drive safely on the route provided, proceed directly to the reception centre and check in with the representative.
