

Canadian Pipelines & Other Terminals

FACT SHEET

About Us

Gibson Energy (Gibson) is a North American-based liquids infrastructure company headquartered in Calgary, Alberta. With 25.2 million barrels of storage and over 500 km of crude pipelines across North America, we touch 1 in 4 WCSB barrels through GEI terminals. Utilizing this focused asset base, along with our dedicated and talented employees, we help create value for our customers while generating stable, long-term cash flow. Ultimately, our strategically located facilities, combined with our best-in-class market connectivity and a long-term growth outlook, help us connect our customers to markets, our employees to exciting and rewarding careers and investors to long-term value.

Our network of over 500 kilometers of 100% owned and operated crude oil pipelines driving volume into our Hardisty Terminal.

Optimal Connectivity To Egress Pipelines & Storage

Our crude oil pipeline network spans more than 500 kilometers and drives volume into the Hardisty Terminal. In addition to our pipelines, Gibson also has 5 smaller terminals located in Alberta and Saskatchewan that aggregate crude oil for customers.

Robust Pipeline Network

Our crude oil pipeline network surrounding the Hardisty Terminal includes the Viking Pipeline, which was placed into service in 2019.

Moving Energy Efficiently

Customers on our pipeline systems benefit from the connectivity into egress pipelines and access to storage available through our Hardisty Terminal.

- **100%** owned and operated by Gibson Energy
- **500+** kilometers of pipeline driving volume
- **90,000** barrels per day throughout capacity

Our Commitment to Our Stakeholders and Partners

At Gibson, we energize collaboration and connectivity. This means we are committed to working closely with the communities where we live and work to ensure we are a responsible corporate citizen. With over 70 years’ experience, we aim to earn the trust of our stakeholders and communities through open and honest communication. From our day-to-day

operations to the planning and implementation of new projects, our business relies on meaningful engagement with the communities we operate, which include landowners, Indigenous Peoples, regulators, all levels of government, community investment partners and other stakeholders.

STAY SAFE AROUND PIPELINES
Call or Click Before You Dig

If you are planning ground disturbance work near a pipeline Right-of-Way, you have an important role to play in ensuring safety. Prior to initiating any type of ground disturbance work, you are required to Call or Click Before You Dig.
