

Canadian Pipelines & Other Terminals

FACT SHEET

About Us

Gibson Energy (Gibson) is a North American-based liquids infrastructure company headquartered in Calgary, Alberta. With 25.2 million barrels of storage and over 500 km of crude pipelines across North America, we touch 1 in 4 WCSB barrels through GEI terminals. Utilizing this focused asset base, along with our dedicated and talented employees, we help create value for our customers while generating stable, long-term cash flow. Ultimately, our strategically located facilities, combined with our best-in-class market connectivity and a long-term growth outlook, help us connect our customers to markets, our employees to exciting and rewarding careers and investors to long-term value.

Our network of over 500 kilometers of 100% owned and operated crude oil pipelines driving volume into our Hardisty Terminal.

Optimal Connectivity To Egress Pipelines & Storage

Our crude oil pipeline network spans more than 500 kilometers and drives volume into the Hardisty Terminal. In addition to our pipelines, Gibson also has 5 smaller terminals located in Alberta and Saskatchewan that aggregate crude oil for customers.

Robust Pipeline Network

Our crude oil pipeline network surrounding the Hardisty Terminal includes the Viking Pipeline, which was placed into service in 2019.
